Contents

No. 1 (February 1992) PAGE

Effect of inclusion of saliva salts in the diet on milk yield and composition in dairy cows. M. Hadjipanayiotou, P. Rowlinson, D. G. Harrison and D. G. Armstrong 1

Trials of a novel mastitis sensor on experimentally infected cows. J. R. Lake, J. E. Hillerton, B. Ambler and H. C. Wheeler 11

Somatic cell counts in relation to infection status of the goat udder. D. Kalogridou-Vassiliadou, K. Manolkidis and A. Tsigoida . . 21

Efficiency of cleaning agents for an inorganic membrane after milk ultrafiltration. G. Daufin, U. Merin, F.-L. Kerherve, J.-P. Labbe, A. Quemerais and C. Bousser 29

Determination of ovine casein heterogeneity using gel electrophoresis and immunochemical techniques. L. Chianese, R. Mauriello, L. Moio, N. Intorcia and F. Addeo 39

Effects of long-term deep-freeze storage on the condition of the fat in raw sheep's milk. E. C. Needs 49

Identification of saturated oxo fatty acids in cheese. E. Y. Brechany and W. W. Christie 57

Detection of propionic acid bacteria in cheese. F. D. Drinan and T. M. Cogan 65

Evidence and characterization of temperate bacteriophage in *Streptococcus salivarius* subsp. *thermophilus* St18. D. Carminati and G. Giraffa . 71

Effect of recombinant chymosin on ewes' milk coagulation and Manchego cheese. M. Nuñez, M. Medina, P. Gaya, A. M. Guillen and M. A. Rodríguez-Marín 81

New type of Domiati cheese of potential benefit to people with high blood cholesterol. N. A. Abou-Zeid 89

Short communications

Changes in the fractions of carbohydrates and whey proteins during heat treatment of milk acidified with carbon dioxide. A. Olano, M. M. Calvo, E. Troyano and L. Amigo 95

Isolation and purification of β-lactoglobulin by mass ion-exchange chromatography. G. I. Imafidon and K.-F. Ng-Kwai-Hang 101

SDS-solubilized whole-cell protein patterns of *Streptococcus salivarius* subsp. *thermophilus* and *Lactobacillus delbrueckii* subsp. *bulgaricus* isolated from Greek yogurts. A. Zourari, J. Commissaire and M. J. Desmazeaud . 105

Esterase activities of cell-free extracts from strains of *Lactococcus lactis* subsp. *lactis* isolated from traditional Greek cheese. E. TSAKALIDOU, E. ZOIDOU and G. KALANTZOPOULOS 111

No. 2 (May 1992)

Milk yield responses to sequential treatments with recombinant bovine somatotrophin and frequent milking in lactating goats. C. H. KNIGHT . 115

Capture immunoassay for the diagnosis of bovine mastitis using a monoclonal antibody to polymorphonuclear granulocytes. C. A. O'SULLIVAN, P. J. JOYCE, T. SLOAN and A. G. SHATTOCK 123

Effect of insulin in conjunction with glucose, amino acids and potassium on net metabolism of glucose and amino acids in the goat mammary gland. S. TESSERAUD, J. GRIZARD, B. MAKARSKI, E. DEBRAS, G. BAYLE and C. CHAMPREDON 135

B-mode ultrasonography of mammary glands of cows, goats and sheep during α- and β-adrenergic agonist and oxytocin administration. R. M. BRUCKMAIER and J. W. BLUM 151

Calcium, phosphate and citrate in human milk at initiation of lactation. J. C. KENT, P. G. ARTHUR, R. W. RETALLACK and P. E. HARTMANN . . 161

Antibacterial and antiviral activity of camel milk protective proteins. E. I. EL AGAMY, R. RUPPANNER, A. ISMAIL, C. P. CHAMPAGNE and R. ASSAF . 169

Heat stability of recombined milk: influence of lecithins on the heat coagulation time–pH profile. C. H. MCCRAE and D. D. MUIR . . . 177

Interactions between the bovine milk fat globule membrane and skim milk components on heating whole milk. A. V. HOULIHAN, P. A. GODDARD, S. M. NOTTINGHAM, B. J. KITCHEN and C. J. MASTERS 187

Effects of some calcium-chelating agents on the physical properties of acid-set milk gels. D. E. JOHNSTON and R. J. MURPHY 197

Contribution of plasmin to Cheddar cheese ripening: effect of added plasmin. N. FARKYE and P. F. FOX 209

Use of the Cd-ninhydrin reagent to assess proteolysis in cheese during ripening. B. FOLKERTSMA and P. F. FOX. 217

Short communications

New spectrophotometric method for measuring hydroxymethylfurfural in powdered milk. M. FERNANDEZ MARQUEZ, J. MONTILLA GOMEZ, E. GUERRA HERNANDEZ and B. GARCÍA-VILLANOVA 225

Heat coagulation of camel milk. Z. FARAH and D. ATKINS 229

No. 3 (August 1992)

Milking of cows in late pregnancy: milk production during this period and during the succeeding lactation. B. RÉMOND, A. OLLIER and G. MIRANDA 233

Separate and additive stimulation of bovine milk yield by the local and systemic galactopoietic stimuli of frequent milking and growth hormone. C. H. KNIGHT, J. E. HILLERTON, M. A. KERR, R. M. TEVERSON, A. TURVEY and C. J. WILDE 243

Computer simulation of the hydraulic milking method. M. C. BUTLER and R. J. GRINDAL 253

Machine-induced teat tissue reactions and infection risk in a dairy herd free from contagious mastitis pathogens. A. ZECCONI, J. HAMANN, V. BRONZO and G. RUFFO. 265

Isolation and characterization of α_2-macroglobulin from mastitis milk. L. K. RANTAMÄKI and H.-P. MÜLLER 273

Collection of fore and hind milk from the sow and the changes in milk composition during suckling. C. S. ATWOOD and P. E. HARTMANN . . 287

New α_2-casein variant from caprine milk. L. CHIANESE, R. MAURIELLO, N. INTORCIA, L. MOIO and F. ADDEO 299

Moisture sorption behaviour of mineral acid, lactic and rennet caseins in the temperature range 27–80 °C. L. M. DIAMANTE, P. A. MUNRO and M. G. WEEKS 307

Changes in structure of the bovine milk fat globule membrane on heating whole milk. A. V. HOULIHAN, P. A. GODDARD, B. J. KITCHEN and C. J. MASTERS. 321

Effect of calcium on the stability of mares' milk lysozyme. R. L. J. LYSTER. 331

K^+ and Cl^- transport by mammary secretory cell apical membrane vesicles isolated from milk. D. B. SHENNAN. 339

Different bacteriophage resistance mechanisms in *Streptococcus salivarius* subsp. *thermophilus*. D. LARBI, B. DECARIS and J.-M. SIMONET . . 349

Intracellular pH and the role of D-lactate dehydrogenase in the production of metabolic end products by *Leuconostoc lactis*. R. J. FITZGERALD, S. DOONAN, L. L. MCKAY and T. M. COGAN 359

Factors in ruminant colostrum that influence cell growth and murine IgE antibody responses. D. L. WATSON, G. L. FRANCIS and F. J. BALLARD . 369

Adherence of psychrotrophic bacteria to dairy equipment surfaces. B. SUÁREZ, C. M. FERREIRÓS and M.-T. CRIADO 381

Accelerated cheese ripening: use of Lac^- mutants of lactococci. S.-E. BIRKELAND, R. K. ABRAHAMSEN and T. LANGSRUD 389

Characterization of the 12% trichloroacetic acid-insoluble oligopeptides of Parmigiano-Reggiano cheese. F. Addeo, L. Chianese, A. Salzano, R. Sacchi, U. Cappuccio, P. Ferranti and A. Malorni 401

Texture and microstructure of chhana and rasogolla made from cows' milk. A. K. Adhikari, Om N. Mathur and G. R. Patil 413

Short communications

Identification of a new molecular form of human α-lactalbumin. F. Maynard 425

Comparison between the EC plate count test at 21 °C and an accelerated plate count method for assessing the keeping quality of pasteurized milk. S. A. Langford and R. G. Kroll 431

No. 4 (November 1992)

Characterization and kinetics of gastric emptying of peptides derived from milk proteins in the preruminant calf. P. Scanff, M. Yvon, S. Thirouin and J.-P. Pélissier 437

Cost benefit analysis of bovine mastitis in the UK. H. S. Beck, W. S. Wise and F. H. Dodd 449

Effect of mastitis on plasminogen activator activity of milk somatic cells. T. Zachos, I. Politis, R. C. Gorewit and D. M. Barbano. 461

Transepithelial potential difference in the goat mammary gland and its change during hand milking, and administration of oxytocin and catecholamines. N. P. Alekseev, A. G. Markov and Yu. A. Tolkunov 469

Aetiology of disturbed milk ejection in parturient primiparous cows. R. M. Bruckmaier, D. Schams and J. W. Blum 479

Characteristics of ruminant mammary epithelial cells grown in primary culture in serum-free medium. S. J. Winder, A. Turvey and I. A. Forsyth. 491

Effect of methionyl bovine somatotrophin in a prolonged-release vehicle on milk production, hormone profiles and health in dairy cows. J. Škarda, E. Markalous, J. Slaba, P. Krejcí, O. Škardová and J. Zedník . 499

Isolation and characterization of 3-deoxypentulose and its determination in heated milk. E. Troyano, A. Olano, M. L. Jimeno, J. Sanz and I. Martínez-Castro 507

Low-field nuclear magnetic resonance relaxation study of thermal effects on milk proteins. P. Lambelet, R. Berrocal and F. Renevey 517

Heat-related changes to the hydrophobicity of cheese whey correlate with levels of native β-lactoglobulin and α-lactalbumin. G. O. Regester, R. J. Pearce, V. K. Lee and M. E. Mangino 527

Effect of culture parameters on the production of styrene (vinyl benzene) and 1-octene-3-ol by *Penicillium caseicolum*. H. E. Spinnler, O. Grosjean and I. Bouvier 533

Studies on antimutagenic effect of milk cultured with lactic acid bacteria on the Trp-P2-induced mutagenicity to TA98 strain of *Salmonella typhimurium*. M. Hosoda, H. Hashimoto, H. Morita, M. Chiba and A. Hosono 543

Short communications

Purification of α_s-, β- and κ-caseins by batchwise ion-exchange separation. P. Cayot, J.-L. Courthaudon and D. Lorient 551

Preparative-scale purification of bovine caseins on a cation-exchange resin. J. Leaver and A. J. R. Law 557

Gredos goats' milk cheese: microbiological and chemical changes throughout ripening. M. Medina, P. Gaya and M. Nuñez 563
